Summary

Frontend Developer with 4.5+ years of hands-on experience building and maintaining scalable, responsive web applications. Core expertise in React ecosystem; also proficient in Vue and Angular. Experienced in multi-framework environments, AI-powered projects, and managing large-scale releases. Proven ability to take ownership of complex features, communicate directly with clients, and ship high-quality code in fast-paced international teams.

Tech Stack

Primary — React Ecosystem: JavaScript (ES6+), TypeScript, React, Redux, Redux-Saga, Next.js, MUI, Ant Design, Styled Components, Bootstrap

Secondary — Vue & Angular: Vue 3, Vuex, Pinia, Vue Router, Nuxt.js, Angular 12+, RxJS, NgRx, Angular Material

Tools & Practices: Git, REST APIs, WebSockets (Socket.io), Agile/Scrum, Jira, Asana, Trello, Figma, CI/CD, GitHub Actions

Testing: Jest, React Testing Library

Other: AI integrations, GitHub/GitLab/Bitbucket, CI/CD

Work Experience

Frontend Developer — Kliox

Project: Multiple Web Applications & Core Architecture *Feb 2026 – Present | Remote*

- Spearheaded the development of new web applications from scratch while maintaining and scaling existing projects using React, Vue, and JavaScript
- Handled end-to-end development lifecycle, ranging from high-level architectural design to feature implementation, bug fixing, and SEO optimization
- Actively leveraged AI tools (Codex, Gemini) to accelerate development workflows, optimize complex code logic, and boost overall engineering productivity
- Delivered versatile technical solutions, adapting to various project needs and ensuring code quality across multiple codebases

Frontend Developer — UpUp

Project: Enterprise Web Ecosystem & AI Solutions *Jun 2025 – Feb 2026 | Remote*

- Maintained and developed 10+ interconnected Angular projects, ensuring consistency across the entire ecosystem
- Fixed bugs, added new features, and participated in major releases managed via GitHub
- Worked on React and AI-powered projects alongside Angular responsibilities
- Communicated directly with clients to clarify requirements, deliver updates, and align on priorities
- Contributed to cross-project architecture improvements and shared component libraries

Frontend Developer — Influencer Hero

Project: Creator Management Platform for Influencer Agencies *Mar 2023 – Apr 2025 | Remote*

- Designed and implemented new architecture for page and component structure, boosting scalability and maintainability
- Developed multi-step campaign creation flows, media upload components, dashboards, and admin tools using React + MUI
- Integrated complex APIs (chat, campaign logic, analytics) and managed global app state with Redux and Redux-Saga
- Worked closely with product/design to align UI/UX with user needs; fixed high-priority bugs and participated in code reviews

Frontend Developer — SoloWay Technologies (bvblogic)

Project: Cryptocurrency Exchange Platform *Nov 2021 – Mar 2023*

- Developed secure KYC flows, transaction histories, and user dashboards
- Maintained and refactored large React/Redux codebase, improved performance and reduced technical debt
- Collaborated cross-functionally with QA and backend teams to ensure feature completeness and stability

Junior Frontend Developer — Freelance

Project: Inventory Tool for Jewelry-Making Supplies *Sep 2021 – Nov 2021 | Remote*

- Built React-based SPA for organizing and managing jewelry components
- Implemented key features like category filtering, search, and responsive layout
- Handled bug fixing and worked independently with the client

Junior Frontend Developer — Global Marketing Group

Jun 2021 – Aug 2021

- Built and maintained static and dynamic landing pages based on design templates
- Ensured pixel-perfect layouts using HTML, CSS, and JavaScript

---

Education

Master's Degree in Software Engineering
Ivano-Frankivsk National Technical University of Oil and Gas | 2021 – 2023

Bachelor's Degree in Computer Science
Ivano-Frankivsk National Technical University of Oil and Gas | 2017 – 2021

Courses: 2018 IT Cluster (Tech Community Program)

Languages

Ukrainian — Native
English — Upper Intermediate (confident written and spoken communication)

Soft Skills

- Punctual, detail-oriented, proactive, non-conflict, and sociable
